

Ertifresh range

Non lauric fresh melting filling fats

Rev. date 13/11/2019

FUJI OIL EUROPE offers this range of Ertifresh fats with the following characteristics:

- ✓ Non hydrogenated vegetable fat
- ✓ Non trans
- ✓ Non lauric
- ✓ Fresh mouthfeel
- ✓ Intermediate saturated fatty acid
- ✓ Level (55 to 65 %)
- ✓ Full compatibility with cocoa butter
- ✓ Tempering required

The Ertifresh range is especially developed for fresh melting fillings where compatibility with cocoa butter is very important.

Ertifresh fats are recommended for:

- ✓ Filled tablets
- ✓ Pralines
- ✓ Confectionery centers
- ✓ Truffles
