

Ertilac CR 830

Non hydrogenated milk fat replacer

Rev.date 13/11/2019

FUJI OIL EUROPE offers Ertilac CR 830 with the following characteristics:

- ✓ Non hydrogenated
- ✓ Low level of cholesterol and saturated fatty acids in comparison with milk fat
- ✓ Melting behavior is close to milk fat
- ✓ Constant quality and constant availability during the whole year
- ✓ For better color compatibility with milk fat, Ertilac CR 830 contains some β -carotene

Replacement of milk fat in dairy products, such as spreads, sour cream, yogurt, etc.

Additional advantage:

- ✓ Can replace milk fat in any ratio
Recommended replacement:
 - 50%- 85%
- ✓ Ertilac CR 830 can be processed on the traditional equipment
- ✓ Lower price in comparison with milk fat
