

Plant-based specialty oils & fats, cocoa fillings & compounds

We love to create innovative food ingredients together

Located at the seaport of Ghent in Belgium, Fuji Oil Europe focuses on the development, production & sales of plant-based oils & fats and industrial chocolate.

Fuji Oil Europe has decades of experience in developing **innovative & value-adding plant-based specialty oils & fats** - together with our customers - for applications where the right choice of vegetable fat really makes a difference.

Fuji Oil Europe also produces **cocoa fillings, compound coatings and specialty chocolates** for the food industry. The industrial chocolate division can rely upon the in-house fat technology in order to create delicious and functional cocoa products.

This unique combination of know-how of oils & fats and chocolate, a drive for innovation and a passion for taste makes Fuji Oil Europe a preferred partner of the food industry.

Your success, our challenge

Stay close to customers and look to the coming age

As “best partner”, we contribute to the future of food in our development, production and sales activities by listening carefully to our customers so that we create new food value for them with maximum flexibility.

Our DNA – challenge & innovation

We constantly monitor market trends in order to develop delicious and healthy products. We collaborate within the Fuji Oil Group to ensure that we are up to speed with the latest technical innovations.

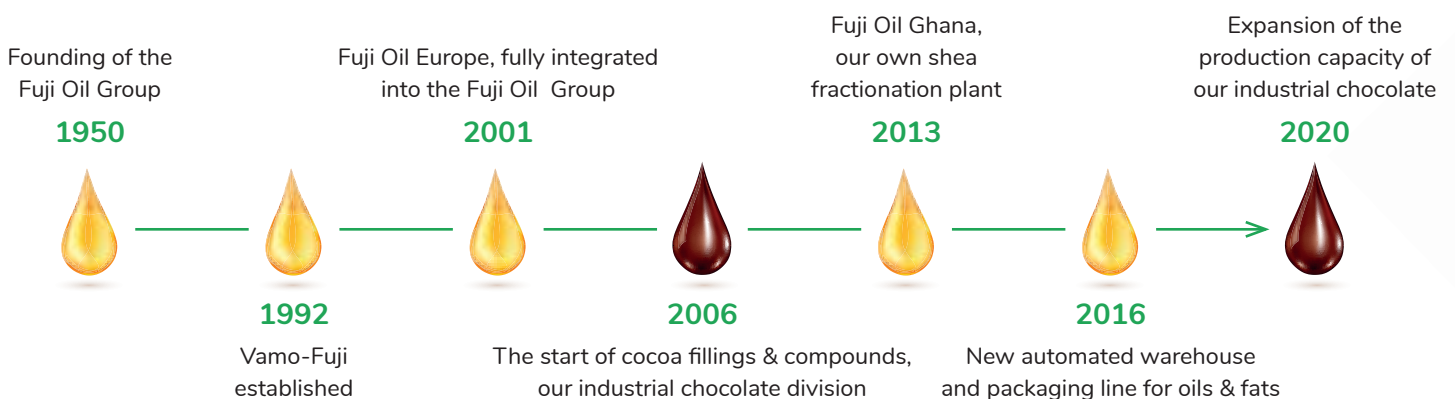

Deliver top quality & safe products

Our quality assurance systems guarantee that our products meet the customers’ specifications, giving an optimal performance on the production line and resulting in the desired consumer product.

Committed to sustainability

Sustainable development goals embody the issues facing the world today. That’s why sourcing sustainable, traceable & high-quality raw materials is of vital importance to us.

Fuji Oil Europe milestones

Our solutions add value to your business

Plant-based specialty oils & fats

Creativity feeds the innovation process. Our taste for innovation and technology adds value to every recipe. Fuji Oil Europe has a large range of processing technologies available, from hydrogenation over fractionation to interesterification and high quality refining.

Fuji Oil Europe has a wide variety of raw materials, carefully sourced and processed: palm & palm kernel oil, coconut oil, shea & cocoa butter, sunflower oil, soy bean oil & rapeseed oil.

Our products:

- Chocolate & coating fats: cocoa butter equivalents (CBE), replacers (CBR) & substitutes (CBS)
- Confectionery filling fats
- Milk fat replacers
- Spread fats
- Infant oil blends
- Frying fats
- Fats for sugar confectionery
- Dough fats

We deliver our oils & fats bulk-liquid, or packed in bag in box, IBC containers and drums.

Cocoa fillings & compounds

From new products and process technologies to improved functionality, quality and cost reduction, we believe collaboration is the key in creating successful innovative solutions. The industrial chocolate division can choose from a wide range of in-house vegetable oils & fats, which are crucial components for cocoa fillings & compounds and uses other high-quality raw materials such as cocoa ingredients, dairy, sugar & other sweeteners and nuts (hazelnuts & almonds).

Our products:

- Premium fillings, with or without nuts
- Compound coatings: CBE, CBS & CBR
- Specialty chocolates made-in-Belgium

We can deliver our fillings & compounds bulk- liquid, packed as easy-melt buttons in boxes, or semi- liquid in pails, drums and IBC containers.

Group Synergy, the Fuji Oil Group at a glance
