SUSTAINABLE**

From source to solution

## Our shea supply chain in 360°

Teleport yourself to the Ghanaian bush, explore a local village, or take a virtual tour of our factory and immerse yourself in our shea value chain.

## Our commitments translated to KPIs

- By 2030, 50% of shea kernels from Tebma Kandu cooperatives.
- By 2030, 75% of shea traceable to cooperative.
- By 2025, 50% increase in local employment (vs. 2017) in our factory.
- By 2023, 100% steam production from non-fossil energy sources.
- 6,000 seedlings planted every year.

## Our shea range

### PALMY SB

100% shea-based coating CBE. Non-hydrogenated, lower SAFA.

### REDUSAT

Perfect for reducing SAFA in fillings and coatings without compromising on taste and texture.

### ERTIFIL AB

Anti-bloom filling fat, suitable for nut-heavy recipes. Ideal for long shelf-life products.

### ERTIMIX NP

Non-palm filling fat for spreads, creams, fillings, dough, toffees and more.
